Roosevelt Asks Determined Fight Until All Autocracy Is Crushed

The throats of New Yorkers, trained by now to bellowing greeting to the emissaries of our Allies, shouted another welcome yesterday to the soldiers and statesmen of the newest republic-awakened, emancipated, fight-

men who rode through the streets of the city yesterday were the representatives of a nation which had just come through the fires of revolution to freedom, wherefore New York held out her welcoming hands to them and gave the clasp of fraternity.

The river craft, as usual, shouted the first welcome. This was taken up by the crowds that had gathered at the Battery to greet the commissio on the threshold of the city. It followed them wherever they went through the afternoon and evening.

Talk of City Hall

Fusion has a problem in its choice of a Borough President of Manhattan. Mayor Mitchel, on whose renomination the life of fusion is considered to depend, has an aversion for Marcus M. Marks, the present president, which he is at no pains to conceal. He has even intimated to friends that he might refuse to run again on the same ticket with Mr. Marks.

On the other hand, Commissioner Kracke and Senator Calder, the Mitchel champions among the Republicans of Brooklyn, are plainly anxious that Mr. Marks be renominated as the Mayor's running mate. His rejection, they

Mr. Marks be renominated as the Mayor's running mate. His rejection, they fear, would greatly strengthen the Livingston forces in Brooklyn, who have threatened to name Marks for Controller on a straight Republican ticket, with Cropsey at its head. Such a combination might carry the Republican plimaries in Brooklyn, and, in any case, a bitter pre-primary fight with such an end in view would seriously weaken the front which fusion must present to the enemy when all the nominations have been made and the real campaign begins. the real campaign begins.

If Josephus Daniels had been elected Borough President of Manhattan four years ago he would probably have conducted himself in much the same way as Borough President Marks. Both are able men, with an excess of kindly feeling toward their fellow mortals, but both have a weakness for publicity and a somewhat fatuous disregard of its nature.

This trait has led Mr. Marks to op-pose the measures of his fusion col-leagues on the Board of Estimate when-ever by doing so he thought he could ever by doing so he thought he could give himself popular prominence. As an independently elected executive he has had this prerogative—something which Mr. Daniels, an appointive officer, might well envy.
